MAYA
BER LERNER

Explaining the complicated, simply

"In 2020, we've entered a new age in automation, infrastructure, and DevOps. Why? Because the new customer experience absolutely demands it."

– Maya Ber Lerner, CTO, Quali

BIO

Maya Ber Lerner joined Quali in 2007 and serves as the company's Chief Technology Officer. Prior to her current position, Maya served as VP Product Management and in a variety of key management roles at Quali including systems engineering and sales. In her sales management roles, Maya was VP of International Sales, Director of Channel Development, and Director of Asia-Pacific Sales. Prior to Quali, Maya held technical roles at Amdocs. She earned a bachelor's degree with honors in biomedical engineering from Tel Aviv University. Maya eventually found her true passion in software and IT automation. She is a frequent speaker, panelist, and contributing writer within the greater tech community, with a focus on DevOps, automation, CX, and more. When not traveling, Maya is the IT person at home, and the only one allowed to change router configurations. Outside of work, she likes drawing, carving, and reading.
